Alcohol and Tobacco Tax and Trade Bureau (TTB)

OMB Control Number: 1513-0016.

Type of Review: Revision of a currently approved collection.

Title: Drawback on Wines Exported.

Form: TTB F 5120.24.

Abstract: The Internal Revenue Code (IRC) at 26 U.S.C. 5062(b), provides, in general, that exporters of taxpaid domestic wine may claim “drawback” of the Federal excise tax paid or determined on the exported wine. Exporters use TTB F 5120.24 to document the wine’s exportation and to submit drawback claims for the exported wine. TTB uses the provided information to determine if the exported wine is eligible for drawback and to calculate the amount of drawback due. This information is necessary to protect the revenue.

Affected Public: Businesses or other for-profits.

Estimated Total Annual Burden Hours: 179.

OMB Control Number: 1513-0031.

Type of Review: Revision of a currently approved collection.

Title: Specific and Continuing Transportation Bond - Distilled Spirits or Wines Withdrawn for Transportation to Manufacturing Bonded Warehouse - Class Six.

Form: TTB F 5100.12, TTB F 5110.67.

Abstract: The IRC at 26 U.S.C. 5214(a)(6) and 5362(c)(4) authorizes the transfer without payment of tax of, respectively, distilled spirits and wine from a bonded premises to certain customs bonded warehouses. Under 19 U.S.C. 1311, bonds are required for such transfers to protect the revenue. In order to provide proprietors of manufacturing bonded warehouses with

operational flexibility based on individual need, TTB allows the filing of either a specific bond to cover a single shipment, using form TTB F 5100.12, or a continuing bond to cover multiple shipments, using form TTB F 5110.67.

Affected Public: Businesses or other for-profits.

Estimated Total Annual Burden Hours: 50.

OMB Control Number: 1513-0061.

Type of Review: Extension of a currently approved collection.

Title: Letterhead Applications and Notices Relating to Denatured Spirits (TTB REC 5150/2).

Abstract: Under the IRC at 26 U.S.C. 5214, denatured spirits (alcohol to which denaturants have been added to render it unfit for beverage purposes) may be withdrawn from distilled spirits plants free of tax for nonbeverage industrial purposes in the manufacture of personal and household products. Since it is possible to recover potable alcohol from denatured spirits and articles made with denatured spirits, a comprehensive system of controlling denatured spirits and articles made with denatured spirits is imposed by the IRC at 26 U.S.C. 5271–5275. In order to protect the revenue and public safety, these IRC sections and their implementing regulations in 27 CFR part 20 require an application and permit to withdraw and use specially denatured spirits, and require formulas, recordkeeping, reporting, and other operational procedures.

Affected Public: Businesses or other for-profits; Not-for-profit institutions; State, local or tribal governments.

Estimated Total Annual Burden Hours: 1,890.

OMB Control Number: 1513-0071.

Type of Review: Revision of a currently approved collection.

Title: Tobacco Products Importer or Manufacturer - Records of Large Cigar Wholesale Prices (TTB REC 5230/1).

Abstract: The IRC, at 26 U.S.C. 5701, imposes a federal excise tax on large cigars based on a percentage of the price for which such cigars are sold by the manufacturer or importer. Pursuant to the authority provided by the IRC at 26 U.S.C. 5741 to require recordkeeping, TTB has prescribed by regulation that manufacturers and importers maintain a list of large cigar sale prices. This provides TTB a means of verifying that the correct amount of tax was determined and ultimately paid by the manufacturer or importer of large cigars.

Affected Public: Businesses or other for-profits.

Estimated Total Annual Burden Hours: 699.

OMB Control Number: 1513-0127.

Type of Review: Revision of a currently approved collection.

Title: Petitions to Establish or Modify American Viticultural Areas.

Abstract: Under the Federal Alcohol Administration Act at 27 U.S.C. 205(e), TTB regulates the use of applications of origin on wine labels, including the use of American viticultural area (AVA) names. Based on petitions submitted by interested parties, TTB establishes new AVAs or modifies existing AVAs through the rulemaking process. The TTB regulations in 27 CFR part 9 specify the information that must be included in such petitions so that TTB is able to evaluate the petitioner's proposal and determine if it meets TTB's regulatory requirements for creating a new AVA or amending the name, boundary, or other terms of an existing AVA.

Affected Public: Businesses or other for-profits; Farms.

Estimated Total Annual Burden Hours: 1,950.

OMB Control Number: 1513-NEW.

Type of Review: New collection (request for a new OMB control number).

Title: Alternate Method--Automated Commercial Environment (ACE) and Partner Government Agency Message Set for Imports Regulated by the Alcohol and Tobacco Tax and Trade Bureau.

Abstract: TTB administers several provisions of the U.S. Code that relate to the importation of alcohol beverages, industrial spirits, tobacco products, processed tobacco, and cigarette papers and tubes. The International Trade Data System (ITDS) is an interagency program to establish a single electronic access point through which importers and exporters may submit the data required by Federal government agencies for importation and exportation. The Security and Accountability for Every Port Act (SAFE Port Act) (Pub. L. 109-347) of 2006 mandated participation in ITDS for all agencies that require documentation for clearing or licensing the importation and exportation of cargo.

The Automated Commercial Environment (ACE) provides a “single window” that allows importers and exporters to enter one set of data for each shipment of imported or exported goods. The TTB Partner Government Agency (PGA) Message Set defines the TTB-specific information that importers may submit electronically through ACE to meet TTB requirements.

With regard to imports, TTB intends to issue an alternate method to allow importers to submit the TTB PGA Message Set electronically, in lieu of submitting paper documents to U.S.

Customs and Border Protection (CBP) at importation. This information collection covers the data that would be submitted electronically through ACE under that alternate method. Most of the information that the alternate method will require importers to submit through ACE is already

required by TTB's regulations. However, there are some additional requirements. For example, importers who are required to have a TTB permit number will submit their TTB permit number when filing electronically in ACE. In general, importers of TTB-regulated commodities are required to obtain a permit from TTB, but they have not previously been required by regulation to file that number with CBP. The information collected under this information collection appears in the “ACE Filing Instructions for TTB-Regulated Commodities” available at www.cbp.gov.

Affected Public: Businesses or other for-profits.

Estimated Total Annual Burden Hours: 36,838.
